Summary: This Thierry Despont masterpiece is located on a unique 3 acre parcel of lush landscaped grounds and pink sand beach on Harbour Island in the Eleuthera chain of the Bahamas. Set in the ultra-private and exclusive "Narrows" area of the island, Despont marries modern chic and historic charm into the ultimate in comfortable, luxury beachfront living.

The main residence is a contemporary symphony of wood and stone with 2 bedrooms and 3 bathrooms, soaring ceilings, floor to ceiling windows, and open airy living areas. Additionally there is a 2 bed, 2 bath cottage with its own kitchen. There's lots of space for additional buildings without disturbing the integrity of the existing structures.

This property is truly one of a kind and something like this rarely makes it to the market. The beachfront oasis commands sweeping views of the Atlantic in all her turquoise glory and the pristine pink sand beach.

Consistently ranked as one of the top islands in the Bahamas and Caribbean, Harbour Island is a tiny jewel in this 700-island
